# Level 5 Diploma in Business Management and Leadership

Our new and revised Level 5 Diploma is the ideal programme for anyone who aspires to take on managerial responsibility and lead. Broadly equivalent to the second year of a Bachelor's degree or Higher National Diploma (HND), this course focuses on the key aspects of the business function, including strategic marketing, corporate social responsibility (CSR), leadership and management, and the role of the business support manager.

The course is the ideal curriculum for anyone who wishes to extend their commercial awareness and move into a broader business support role or, indeed, have the potential to move out of the support role altogether. Typically, students who graduate from this programme have secured more comprehensive EA roles, or move into roles such as Business Support Manager, L&D Business Partner, Team Leader/Team Manager, or Project Manager.

The qualification is achieved on completion of 4 Mandatory Units and 4 Optional Units. Knowledge is gained by attending classes at our Manchester Academy, and online, along with additional research and self-study completed in the student's own time. Assessment is by written assignment or practical work.

## On this Level 5 programme, you'll study:

- 4 Mandatory Units: operations management; role of business support manager, leadership and management; and learning and development.
- 4 Optional Units: business ethics and corporate social responsibility; project management; innovation and entrepreneurship; and marketing communications strategy.

---

# Level 5

**There are no formal entry requirements but it is strongly recommended that candidates have significant equivalent work experience in the business administration area.**

## Course duration:

We generally would advise learners to undertake the course over 18-24 months. In addition to attending our classes in Manchester, we also recommend 6-10 hours a week to successfully complete the qualification.
